**RE: HDSA Center of Excellence**

Dear Colleagues,

The University of Tennessee Health Science Center has been selected as a Huntington Disease Society of America (**HDSA**) Center of Excellence (**COE**) - <http://hdsa.org/about-hdsa/centers-of-excellence>. Our COE offers comprehensive care to patients and families with **Huntington disease**. Patients and families have on-site access to a social worker, physical therapist, genetic counselor, occupational therapist, speech/language pathologist, and nutritionist/dietician. Patients also have ready access to psychiatrists and clinical geneticists. We are an active Enroll-HD site (<https://www.enroll-hd.org/>) and also offer participation in other HD clinical research studies.

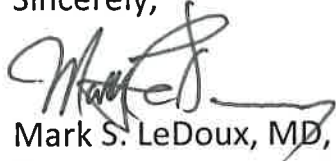

Any of the following contacts can be used to schedule appointments:

Wesley Neurology Clinic  
8000 Centerview Parkway, Suite 305  
Cordova, TN 38018  
Phone: 901-261-3500

Clinic Coordinator: Dr. Ellen Fleetwood  
[emesseng@vols.utk.edu](mailto:emesseng@vols.utk.edu)  
Phone: 901-448-7375

Research Coordinator: Robin Cox  
[rcox@uthsc.edu](mailto:rcox@uthsc.edu)  
Phone: 901-448-6180

Sincerely,

Mark S. LeDoux, MD, PhD, FAAN  
Professor
